	Applicable hydraulic pressure range: 1-5kgf/cm2
	Scope of application: M24X1, male
	SIZE OF PRODUCT
	

DIY It explains to install

1 Shut off the water supply.

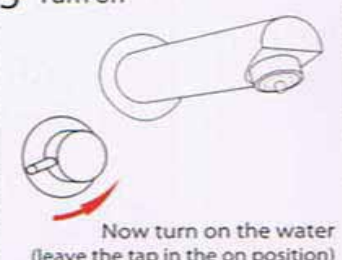

Remove existing aerator and set off screw using a wrench.

2 Tighten

Attach "One Touch" tap's nozzle, fasten it up using a wrench.

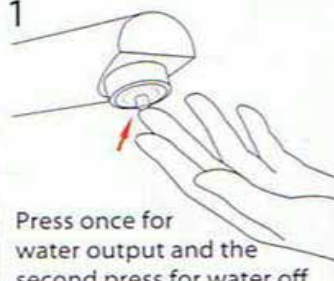

3 Turn on

Now turn on the water (leave the tap in the on position)

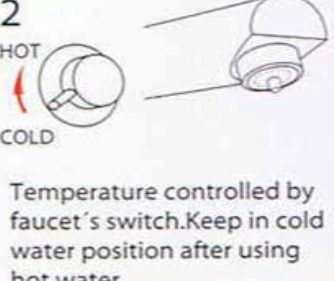

Operation instructions

1

Press once for water output and the second press for water off

2

Temperature controlled by faucet's switch. Keep in cold water position after using hot water.

Precautions

- ◆ Turn off faucet if water non-supplied
- ◆ Turn off hot water and turn back to cold water after using hot water to avoid hot water's flowing back to effect water boiler's function
